8. Q: The "Universal Wiper Device" have passed the general safety and environmental requirements?

A: Yes, there passed the CE test, and environmental RoHS certification. And environmental RoHS certification.

[See the attachment : CE & RoHS certificated docu.](#)

9. Q: The "Universal Wiper Device" products have warranty, how many use life of the wiper blade and replacement is easy?

A: The "Universal Wiper Device" product warranty for one year, and the wiper blade life is 2 to 3 years, replacement is very easy, such as operating instructions.

[See the attachment : UWD-800 User Menu](#)

10. Q: How many the length of wiper blade? swing area is big enough?

A: wiper blade length is 6cm, brush the area is enough to allow users sight clear, such as wearing a glasses and to keep the lens clear is enough

11. Q: When used "Universal Wiper Device" will be generated how many noise? and the wiper blade stop location will be cover the users sight?

A: The "Universal Wiper Device" generated noise is lower than background noise (eg: car/motorcycle engine sounds, the road original noises), so users could not feel the noise from device. The wiper blade location is beyond the eyebrows, so it is not hide the users sight.

12. Q: The "Universal Wiper Device" how many weight, and easy to collection?

A: The "Universal Wiper Device" weight without battery is 229g, including batteries is 324g, dimension is 19x15x7.6cm, this device is easy collect to the motorcycle's goods box.

13. Q: How many swing modes of "Universal Wiper Device"? is user friendly of operation?

A: three modes of swing:

(1) continuous mode : 25 r / M

(2) intermittent mode : 15 r / M

(3) touch mode : 1 r / one touch

Adopt wireless remote control operation, remote control placed in the handle bar of motorcycle, like press horn, it is very convenient
